EXPERIENCE

Curriculum and Instructional Design Specialist May 2012-Present
Education Development Center Waltham, MA

- Develop interactive e-learning modules in entrepreneurship, HIV and AIDS case management and care, suicide prevention, and community-based rehabilitation with domestic and international partners.
 - + Develop user stories through journey-mapping interviews.
 - + Work with subject matter experts to define and distill content.
 - + Design user interfaces and information architecture.
 - + Create wireframes, storyboards, and mockups.
 - + Draft specifications for graphic design and Web production teams.
 - + Program interactive modules using Articulate Storyline, adapting for 508-compliance and accessibility on mobile devices.
 - + Coordinate and collaborate with external agencies to adapt courses for multiple languages.
- Lead instructional design and production teams as SCRUM master.
 - + Lead recruiting, hiring, training, managing of on/off-site staff.
 - + Coordinate production schedules to deliver on-time and in-scope.
- Facilitated company-wide educational technology workshops.

Planning Team Coordinator June 2008-Aug 2013
Project Destiny, summer and after-school Boston, MA

- Designed and administered training workshops for staff.
- Assisted in vision-casting, administrative planning, facilitation, and evaluations of the summer and after-school programs.

Web Production Assistant May 2008-Aug 2011
Magic Hour Communications Waltham, MA

- Coded webpages using Adobe Dreamweaver and source code editors.
- Created custom graphics using Adobe Photoshop and Adobe Illustrator.

HCI and Educational Technology Intern May 2010-July 2010
National Science Foundation Ames, IA

- Designed content, user interface, mechanics, and graphics of an online educational game for middle and high school students about frequently misunderstood concepts of basic genetics.
